John,

I've attached our discussions to see if you have thoughts.

-Jason

Hi John,

I am back in Juneau and sorting through emails today, but I wanted to circle back on this to see who was on first for a meeting (if necessary) or if you just need me to transmit the list? Amongst the topics I've had the opportunity to discuss with Katie, this did not make the list, yet – unfortunately.

v/r,

Jason Olds
ADEC – Air Quality, Compliance
Program Manager

John,

I've attached Denise's announcement internally and I'll be taking over as the Compliance Program Manager effective Oct. 1st.

I've asked the other offices to complete their recommendations by next Friday, but I may have their collected responses in sooner. I'd be fine with moving this up to an agreeable time in the first week of October.

v/r,

Jason Olds
ADEC – Air Quality, Compliance

Juneau Office Supervisor

Jim, I can understand why you'd want. We'll be glad to have your recommendations when available. In the meantime R10 will need to start making plans for the other states and Tribal lands, and filling in slots in our calendar.

Sincerely,

John Pavitt, Air Compliance Inspector

John –

I'd like to delay this response until the newly selected (but not yet) Compliance Program Manager has a chance to compile and act on staff recommendations. Those recommendations will be due to me until such time as a new Program Manager is selected. I would propose the first or 2nd week in October as a new due date from ADEC to EPA.

Jim Plosay

Manager, Air Permits Program
(Acting) Manager, Air Compliance Program

Subject: Request for nominations for EPA on-site PCE or FCE inspections

Nominations are due no later than Wednesday, September 26, 2018.

The purpose of this message is to solicit ideas for EPA on-site partial or full compliance evaluations at major stationary sources and SM80s in Alaska.

As part of our planning for the federal fiscal year FY2019 (October 1, 2018 through September 30, 2019), EPA is identifying where to conduct on-site evaluations using Region 10 staff. An evaluation could be a partial compliance evaluation targeted for a particular issue or an FCE. In the past, I know states/locals have requested EPA participation for various reasons including oversight of new inspectors, difficult

Ex. 7(E)

Please be aware that EPA has limited resources which also must be used to conduct evaluations at Part 71 sources and others in Indian Country as well as supporting on-going case development.

If you do have a nomination, please describe why you are nominating the facility (please be as specific as possible and give any background information that would help us understand the issues) and what you hope the outcome will be as a result of EPA's participation so that we can evaluate all nominations and staff the effort appropriately.

If you have any questions, feel free to give me a call to discuss.

Sincerely,

John Pavitt, Air Compliance Inspector
